WARNINGS

CAUSES EYE AND SKIN IRRITATION

- DO NOT GET IN EYES, ON SKIN, OR ON CLOTHING
- MAY CAUSE A TEMPORARY ALLERGIC EYE OR SKIN REACTION
- MAY CAUSE A TEMPORARY ALLERGIC RESPIRATORY REACTION
- KEEP OUT OF REACH OF CHILDREN

ACUTE & CHRONIC HEALTH EFFECTS

Acute Health Effects:

From MSDS

POTENTIAL HEALTH EFFECTS

EYES: This substance causes eye irritation. May also cause a temporary allergic reaction characterized by redness and swelling of the eyes. Eye irritation may also include redness, swelling and discomfort, tearing and blurred vision.

SKIN: This substance causes skin irritation. This substance can cause a temporary allergic skin reaction in some individuals characterized by swelling, redness or rash on exposed skin areas.

INGESTION: Ingestion may cause irritation of the digestive tract. Digestive tract irritation may include nausea, vomiting, and diarrhea. If swallowed, this substance is considered practically non-toxic to internal organs.

INHALATION: Breathing spray mist may cause a temporary allergic respiratory response or mild bronchial irritation.

Chronic Health Effects:

From MSDS

Breathing spray mist may cause a temporary allergic respiratory response or mild bronchial irritation.

Carcinogenicity:

From MSDS

GENERAL COMMENTS: This product contains chlorothalonil. The carcinogenic potential of technical-grade chlorothalonil (97%) has been tested in two rat studies and one mouse study. It was reported to cause an increased incidence of malignant and/or combined malignant and benign kidney tumors in both sexes in both rat studies and in male mice. In addition, increased incidences of malignant forestomach tumors were observed in both sexes of mice and in female rats in one study. Based on the results of these studies, chlorothalonil has been classified as a B2 carcinogen by the US EPA. There is no epidemiology data classifying chlorothalonil as a human carcinogen.

FIRST AID

From MSDS

EYES: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.

Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.

Call a poison control center or doctor for treatment advice.

SKIN: If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

INGESTION: If swallowed, call a poison control center or doctor immediately for treatment advice. Have person sip glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Never give anything by mouth to an unconscious person.

INHALATION: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

HANDLING & DISPOSAL

Handling: From MSDS

GENERAL PROCEDURES: Keep pesticide in original container. Do not put concentrate or dilute into food or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place, preferably locked storage area.

ENVIRONMENTAL DATA: No data available.

ECOTOXICOLOGICAL INFORMATION: This material is toxic to aquatic organisms and should be kept out of sewage and drainage systems and all bodies of water.

Disposal: From MSDS

If necessary to dispose of partially filled product container, securely wrap it in several layers of newspaper and discard in trash.

EMPTY CONTAINER: Do not reuse container. Rinse thoroughly before discarding in trash.
