

MATERIAL SAFETY DATA SHEET (91/155/EEC) 3250' OMYACOLOR

Date prepared : 11/5/2003 Product name : maxi tip felt pens
ref:103

Page 1/3

1. Identification of substance / preparation and company / enterprise

- Identification of substance or preparation : maxi tip felt pens
- Trade name :
- Identification of company / enterprise : OMYACOLOR SA
- Manufacturer / supplier :
- Street / POB :
- Country / Zip Code / Place : FRANCE - 51240 SAINT GERMAIN LA VILLE
- Telephone : 33.(0)3.26.69.26.26 Fax : 33.(0)3.26.67.55.88
- Emergency information : 33.(0)3.26.69.26.26

9721421

2. Composition / data regarding components

ink based tip felt pens for writing and drawing

3. Main hazards

- Essential hazards for man and the environment : None

4. Emergency and first aid procedures

- After inhalation : No special measure is necessary
- After contact with skin : Wash with soapy water
- After contact with eyes : Wash immediately and abundantly with water and see a specialist
- After ingestion : See a doctor

5. Fire fighting procedures

- Appropriate extinguisher media : Water ; CO2 ; Foam ; Dry chemical
- Special hazards : None

6. Accidental release measures

- Personal precautions : None
- Precautions for environmental protection : None
- Method of cleaning : Collect by mechanical means and dispose of preparation in accordance with regulatory requirements

7. Handling and storage

- General information : No special precaution is necessary
- Handling :
 - Precautions to be taken for hazard free handling : None
 - Fire and explosion precautions : No special measure for the prevention of fires and explosions is necessary

MATERIAL SAFETY DATA SHEET (91/156/EEC)**OMYACOLOR**

Date prepared : 11/5/2003 Product name : maxi tip felt pens

- Storage :
Safety conditions required for storage : *Storage area must be kept clean. Personal hygiene must be carefully respected. All foods and beverages are to be forbidden in the storage area. All packagings are to be kept carefully closed.*

Storage conditions for incompatible materials : NA
Other storage conditions : *Best kept in original packaging. Keep away from heat.*

8. Health hazards (exposure / personal protection)

- Necessary personal protection equipment :
Health / protection measures : *Do not eat or drink during use.*
Respiration : *Not necessary*
Hands : *Not necessary*
Eyes : *Not necessary*
Skin : *Not necessary*

9. Physical and chemical characteristics

- Appearance :
Physical state :
Color : 12 different colors

Odor : none
- Safety data : NA

10. Stability and reactivity :

- Stability : *Good*
- Hazardous reaction : *No hazardous reaction known if handling and storage rules are respected*

Substances to be avoided : *Not known*
Hazardous decomposition products : *If storage and handling rules are respected, no known hazards*

11. Toxicological information

- Acute toxicity : *According to our experience and information to which we have access, the product does not entail any hazard known at the date of the preparation of this safety data sheet.*
- Local effects : *In the present state of our knowledge, no risk of damage if the product is used according to state of art practices.*

12. Ecological information

- General information :
*Do not discard into drains.
In the present state of our knowledge, no harm to the environment is to be feared if the product is handled according to state of art practices.*

13. Waste disposal methods

- Product :
Recommendation :
*Collect and put in authorized dump.
Respect local regulations.
Only incinerate in an approved installation.
Do not incinerate closed packages.*
- Contained packaging : NA

14. Transport regulations

- International regulations : *Not concerned*

15. Regulatory information

- Classification according to EC directive.
Dangerous component(s) for labelling : *Not subject to labels*
- National directives.
Dangerous component(s) for labelling : *Not subject to labels*

16. Other information

- *Product conforms with Norm EN 71-1/2/3.*
- *This sheet supplements the technical instructions but does not replace them. The information that it contains is based on the state of our knowledge relative to product in question as of the given date. It is given in good faith. The attention of the user is nevertheless drawn to risks eventually incurred when a product is used for purposes other than for which it was intended. In no case does it exempt the user from knowing and applying all laws regulating his activity. The user is alone responsible for taking the precautions related to the proper use of a product.*
