

Material Safety Data Sheet

May be used to comply with  
OSHA’s Hazard Communication Standard,  
29 CFR 1910. 1200. Standard must be  
consulted for specific requirements.

U.S. Department of Labor

Occupational Safety and Health Administration  
(Non-Mandatory Form)  
Form Approved  
OMB No. 1218-0072

IBE-1

|--|--------------------------------|---|------|
| <b>Section III – Physical/Chemical Characteristics</b> |                                |   |      |
| Boiling Point  | 290°F                          | Specific Gravity (H <sub>2</sub> O = 1) | 0.9  |
| Vapor Pressure (mm Hg.)                                | <10                            | Melting Point                           | N.A. |
| Vapor Density (AIR = 1)                                | >1                             | Evaporation Rate (Butyl Acetate = 1)    | <1   |
| Solubility in Water                                    | Insoluble                      |   |      |
| Appearance and Odor                                    | Black liquid; hydrocarbon odor |   |      |

|  |                  |     |     |
|--|------------------|-----|-----|
| <b>Section IV – Fire and Explosion Hazard Data</b> |                  |     |     |
| Flash Point (Method Used)                          | Flammable Limits | LEL | UEL |
| 104°F TCC  |                  | 1%  | 7%  |

**Extinguishing Media** Carbon dioxide and dry chemical extinguishers for small fires; use foam for large fires.

**Special Fire Fighting Procedures** Firefighters must wear self-contained breathing apparatus with full faceplate operated in pressure demand or positive pressure mode. Water may be used to cool closed containers to prevent pressure build-up or explosion.

**Unusual Fire and Explosion Hazards** Vapors may accumulate and travel to ignition sources distant from handling site. Keep away from high heat, sparks and open flame. Burning liquid can float on water, spread further and be subject to re-ignition.

**Section V – Reactivity Data**

|           |          |  |
|-----------|----------|--|
| Stability | Unstable | Conditions to Avoid                                |
|           |          | High heat and contact with strong oxidizing agents |
|           | Stable   |  |
|           | XXX      |  |

**Incompatibility (Materials to Avoid)**

Avoid contact with acids and oxidizing agents

**Hazardous Decomposition or Byproducts**

Carbon monoxide and zinc vapors

|                |           |                           |
|----------------|-----------|---------------------------|
| Hazardous      | May Occur | Conditions to Avoid       |
| Polymerization |           | Heat; sources of ignition |
|                | XXX       |                           |

**Section VI – Health Hazard Data**

|                   |                 |           |                     |
|-------------------|-----------------|-----------|---------------------|
| Route(s) of Entry | Inhalation? YES | Skin? YES | Ingestion? POSSIBLE |
|-------------------|-----------------|-----------|---------------------|

**Health Hazards (Acute and Chronic)** EYES: can cause irritation. SKIN: prolonged contact can cause irritation, defatting and dermatitis. INGESTION: gastrointestinal disturbances and vomiting if large amounts are ingested. INHALATION: high vapor concentrations can result in headache, nausea, dizziness and irritation of the respiratory tract, chronic effects include CMS depression, allergic responses, toxic lead effects.

|                  |                 |                     |                    |
|------------------|-----------------|---------------------|--------------------|
| Carcinogenicity: | NTP? NOT LISTED | IARC Monographs? NO | OSHA Regulated? NO |
|------------------|-----------------|---------------------|--------------------|

**Signs and Symptoms of Exposure** EYES: redness and watering of eyes. SKIN: redness and irritation; possibly contact dermatitis. INGESTION: possibly nausea, cramps, vomiting; other stomach and intestinal disturbances. INHALATION: possibly headache, nausea, respiratory irritations.

**Medical Conditions Generally Aggravated by Exposure:** EYES: conjunctivitis and prior irritation. SKIN: dermatitis and some burns. INGESTION: any gastrointestinal disorder including but not limited to ulcers and sore throat from colds or influenza infections. INHALATION: prior irritation.

**Emergency and First Aid Procedures:** EYE CONTACT; remove contact lenses, if worn; rinse eyes with water holding eyelid open. SKIN CONTACT: rinse skin with water. INGESTION: drink a large glass of water or milk, if any symptoms persist or exposure was severe CONTACT A PHYSICIAN IMMEDIATELY.

**Section VII – Precautions for Safe Handling and Use**

**Steps to Be Taken in Case Material is Released or Spilled** CAUTION! COMBUSTIBLE! Contain spills such that material does not enter public waterways through storm sewers or landfill runoff. Remove sources of ignition.

**Waste Disposal Method** Dilute, rinse water should be handled by a licensed treatment facility. Solid waste is preferably incinerated.

**Precautions to Be Taken in Handling and Storing** As packaged, no special precautions are necessary for ordinary handling and storage.

**Other Precautions** Spills into or leading to waterways that cause a sheen must be reported to the National Response Center, 800-424-8802.

**Section VIII – Control Measures**

**Respiratory Protection (Specify Type)** Not generally required during normal use and handling. The need for respiratory protection should be evaluated if this material is sprayed or heated in poorly ventilated areas. If exceeding the exposure limits use NIOSH/MSHA organic vapor respirator.

|             |                      |        |         |                 |
|-------------|----------------------|--------|---------|-----------------|
| Ventilation | Local Exhaust        | NORMAL | Special | EXPLOSION PROOF |
|             | Mechanical (General) | NORMAL | Other   | N.A.            |

|                   |   |                |                  |
|-------------------|---|----------------|------------------|
| Protective Gloves | Use chemical resistant, nitrile, neoprene or rubber gloves. | Eye Protection | Chemical goggles |
|-------------------|---|----------------|------------------|

**Other Protective Clothing Or Equipment** Safety glasses or chemical goggles to safeguard against potential eye contact, irritation or injury.

**Work/Hygienic Practices** Wear protective clothing to prevent skin contact. The availability of eye washes and safety showers is recommended. Wash hands before eating or using the restroom.
