### Section 3 -- HAZARDS IDENTIFICATION

## ROUTES OF EXPOSURE

Exposure may be by INHALATION and/or SKIN or EYE contact, depending on conditions of use. To minimize exposure, follow recommendations for proper use, ventilation, and personal protective equipment.

## EFFECTS OF OVEREXPOSURE

Irritation of eyes, skin and upper respiratory system.

May cause nervous system depression. Extreme overexposure may result in unconsciousness and possibly death.

#### SIGNS AND SYMPTOMS OF OVEREXPOSURE

**SIGNS AND SYMPTOMS OF OVEREXPOSURE**  
Headache, dizziness, nausea, and loss of coordination are indications of excessive exposure to vapors or spray mists.

Redness and itching or burning sensation may indicate eye or  
excessive  
skin exposure.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE

None generally recognized.

CANCER INFORMATION

For complete discussion of toxicology data refer to Section 11.

Continued on page 2

A66F90

page 2

=====

====

Section 4 -- FIRST AID MEASURES

-----

---

If INHALED: If affected, remove from exposure. Restore breathing.  
Keep warm and quiet.

If on SKIN: Wash affected area thoroughly with soap and water.  
Remove contaminated clothing and launder before reuse.

If in EYES: Flush eyes with large amounts of water for 15 minutes.  
Get medical attention.

If SWALLOWED: Do not induce vomiting.  
Get medical attention immediately.

=====

====

Section 5 -- FIRE FIGHTING MEASURES

-----

---

FLASH POINT	LEL	UEL
105 F PMCC	1.0	6.0

FLAMMABILITY CLASSIFICATION

Combustible, Flash above 99 and below 200 F

EXTINGUISHING MEDIA

Carbon Dioxide, Dry Chemical, Foam

UNUSUAL FIRE AND EXPLOSION HAZARDS

Closed containers may explode when exposed to extreme heat.

Application to hot surfaces requires special precautions.

During emergency conditions overexposure to decomposition products  
may

cause a health hazard. Symptoms may not be immediately apparent.

Obtain

medical attention.

SPECIAL FIRE FIGHTING PROCEDURES

Full protective equipment including self-contained breathing  
apparatus  
should be used.

Water spray may be ineffective. If water is used, fog nozzles are  
preferable. Water may be used to cool closed containers to prevent  
pressure build-up and possible autoignition or explosion when exposed to  
extreme heat.

=====

====

Section 6 -- ACCIDENTAL RELEASE MEASURES

-----

---

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Remove all sources of ignition. Ventilate the area.

Remove with inert absorbent.

=====

====

## Section 7 -- HANDLING AND STORAGE

---

### ---

#### STORAGE CATEGORY

DOL Storage Class II

#### PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE

Contents are COMBUSTIBLE. Keep away from heat and open flame.

Consult NFPA Code. Use approved Bonding and Grounding procedures.

Keep container closed when not in use. Transfer only to approved containers with complete and appropriate labeling. Do not take internally.

Keep out of the reach of children.

A66F90

page 3

---

---

---

## Section 8 -- EXPOSURE CONTROLS/PERSONAL PROTECTION

---

### ---

#### PRECAUTIONS TO BE TAKEN IN USE

Use only with adequate ventilation.

Avoid contact with skin and eyes. Avoid breathing vapor and spray mist.

Wash hands after using.

This coating may contain materials classified as nuisance particulates

(listed "as Dust" in Section 2) which may be present at hazardous levels only during sanding or abrading of the dried film. If no specific dusts are listed in Section 2, the applicable limits for nuisance dusts are ACGIH

TLV 10 mg/m<sup>3</sup> (total dust), 3 mg/m<sup>3</sup> (respirable fraction), OSHA PEL 15 mg/m<sup>3</sup>

(total dust), 5 mg/m<sup>3</sup> (respirable fraction).

Removal of old paint by sanding, scraping or other means may generate dust or fumes that contain lead. Exposure to lead dust or fumes may cause

brain damage or other adverse health effects, especially in children or pregnant women. Controlling exposure to lead or other hazardous substances

requires the use of proper protective equipment, such as a properly

fitted

respirator (NIOSH approved) and proper containment and cleanup. For more

information, call the National Lead Information Center at 1-800-424-LEAD (in US) or contact your local health authority.

#### VENTILATION

Local exhaust preferable. General exhaust acceptable if the exposure to

materials in Section 2 is maintained below applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, 1910.108.

#### RESPIRATORY PROTECTION

If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted organic vapor/particulate respirator approved by NIOSH/MSHA for protection against materials in Section 2.

When sanding or abrading the dried film, wear a dust/mist respirator approved by NIOSH/MSHA for dust which may be generated from this product,

underlying paint, or the abrasive.

PROTECTIVE GLOVES

Wear gloves which are recommended by glove supplier for protection against materials in Section 2.

EYE PROTECTION

Wear safety spectacles with unperforated sideshields.

OTHER PRECAUTIONS

Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal.

Section 11 -- TOXICOLOGICAL INFORMATION

-----  
----

CHRONIC HEALTH HAZARDS

Cobalt and cobalt compounds are classified by IARC as possibly carcinogenic to humans (group 2B) based on experimental animal data, however, there is inadequate evidence in humans for its carcinogenicity.

Prolonged overexposure to solvent ingredients in Section 2 may cause adverse effects to the liver and urinary systems.

Reports have associated repeated and prolonged overexposure to solvents

with permanent brain and nervous system damage.

Section 12 -- ECOLOGICAL INFORMATION

ECOTOXICOLOGICAL INFORMATION  
No data available.

Section 13 -- DISPOSAL CONSIDERATIONS

WASTE DISPOSAL METHOD  
 Waste from this product may be hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.  
 Waste must be tested for ignitability to determine the applicable EPA hazardous waste numbers.  
 Incinerate in approved facility. Do not incinerate closed container. Dispose of in accordance with Federal, State/Provincial, and Local regulations regarding pollution.

Section 16 -- OTHER INFORMATION

-----

---  
This product has been classified in accordance with the hazard criteria  
of the CPR and the MSDS contains all of the information required by the  
CPR.

The above information pertains to this product as currently  
formulated,  
and is based on the information available at this time. Addition of  
reducers or other additives to this product may substantially alter the  
composition and hazards of the product. Since conditions of use are  
outside our control, we make no warranties, express or implied, and  
assume  
no liability in connection with any use of this information.
