Roundup Concentrate Weed & Grass Killer1 MSDS #7017

MATERIAL SAFETY DATA SHEET

PREPARED: 04/07/1999
MSDS #: 7017
Product Name: Roundup Concentrate Weed & Grass Killer1

IDENTICAL PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: Roundup Concentrate Weed & Grass Killer1
PRODUCT DESCRIPTION: Herbicide

MANUFACTURER 24 HR.
The Monsanto Company EMERGENCY

1 & Garden Products
outh High Street
mbus, OH 43215

TELEPHONE NUMBERS

Emergency Phone 1-
800-225-2883

G. NO.: 71995-17 PN: 6052A

POSITION / INFORMATION GREDIENTS

<u>Chemical Name</u>	<u>Wt.%</u>	<u>CAS#</u>
hosate, isopropylamine salt	18	38641-94-0

DANGERS IDENTIFICATION

EMERGENCY OVERVIEW

PHYSICAL APPEARANCE: Light amber liquid

IMMEDIATE CONCERNS: CAUSES EYE IRRITATION
EYED CONTACT WITH EYES OR CLOTHING
ASH THOROUGHLY WITH SOAP AND WATER AFTER HANDLING
EEP OUT OF REACH OF CHILDREN

ENTIAL HEALTH EFFECTS

YES: Eye contact may include discomfort, tearing, swelling, redness, and blurred vision. See Toxicology Information, section 11.

KIN: This substance is not expected to cause prolonged or significant skin irritation. If absorbed through the skin, this substance is considered practically non-toxic to internal organs. This product is not expected to cause allergic skin reaction. See Toxicology Information, section 11.

INGESTION: Ingestion may produce irritation of the digestive tract as demonstrated by signs and symptoms of mouth membrane irritation, nausea, vomiting and diarrhea. See Toxicology Information, section 11.

NHALATION: Overexposure to spray mist may result in minor irritation of the upper respiratory tract. See Toxicology Information, section 11.

RST AID MEASURES

YES: If in eyes, immediately flush with plenty of water. Get medical attention if irritation persists.

SKIN: No first aid procedures are required. As a precaution, wash skin thoroughly with soap and water. Remove and wash contaminated clothing.

INGESTION: If swallowed, immediately telephone a poison control center, emergency treatment center or a physician for advice. DO NOT make person vomit unless directed to do so by medical personnel. If medical advice cannot be obtained, then immediately take person and product container, with label, to an emergency treatment center.

NHALATION: If respiratory discomfort or irritation occurs, move the person to fresh air. See a doctor if discomfort or irritation continues.

ADDITIONAL INFORMATION: Medical Information: Call day or night, 1-800-225-2883

RE FIGHTING MEASURES

LASHPOINT AND METHOD: >200°F TAG CC

XTINGUISHING MEDIA: Water spray, foam, CO₂, dry chemical or any class B extinguishing agent.

HAZARDOUS COMBUSTION PRODUCTS: This material will not burn.

IRE FIGHTING PROCEDURES: For fires involving this

aterial, do not enter any enclosed or confined fire space without proper protective equipment. This may include self-contained breathing apparatus to protect against the hazardous effects of normal products of combustion or oxygen deficiency. Read the entire document.

CIDENTAL RELEASE URES

SMALL SPILL: Soak up spilled material with paper towels and discard in ash.

LARGE SPILL: Liquid spills on floor or other impervious surfaces should be contained or diked, and should be absorbed with attapulgite, bentonite or other absorbent clays. Collect contaminated absorbent, place in plastic-lined metal drum and dispose of in accordance with instructions provided under Section 13. "DISPOSAL". Thoroughly scrub floor or other impervious surface with a strong industrial type detergent solution and rinse with water.

For liquid spills that soak into the ground, contact the applicable Federal, State and/or County Health Dept. for disposal recommendations. If disposal is required then refer to Section 13 "DISPOSAL" for instructions.

Leaking containers should be separated from non-leakers and either the container or its contents transferred to a drum or other non-leaking container and disposed of in accordance with instructions provided under Section 13 "Disposal". Any recovered spilled liquid should be similarly collected and disposed of.

Do not contaminate water, foodstuffs or feed by storage or disposal.

GENERAL PROCEDURES: Observe all protection and safety precautions when cleaning up spills -- see Section 8. "EXPOSURE CONTROLS/PERSONAL PROTECTION". For help with any spill, leak, fire or exposure involving this material, call day or night (800) 225-2883.

HANDLING AND STORAGE

GENERAL PROCEDURES: Keep pesticide in original container. Store in a secure, preferably locked, storage area. Protect container from freezing.

EXPOSURE CONTROLS / PERSONAL PROTECTION

ENGINEERING CONTROLS: No special ventilation is necessary.

PERSONAL PROTECTION

YES AND FACE: Workers handling the concentrate should wear chemical goggles to prevent eye contact during mixing/transfer operations or other activities where there is potential for eye contact with the concentrated product. The wearing of goggles is not required during use of this product in accordance with label instruction.

KIN: Although this product does not present a significant skin concern, minimize skin contamination by following good industrial practice. Wearing protective gloves is commended. Wash hands and contaminated skin thoroughly after handling.

RESPIRATORY: For Handling the Concentrated Product: Avoid breathing vapor or mist. This product concentrate is not likely to pose an airborne exposure concern during manufacture or packaging. In the event of abnormal exposure conditions, use NIOSH/MSHA approved equipment. In work situations where an air purifying respirator is appropriate to be used, use of a full face respirator equipped with purifying elements for protection against organic vapor and dust/mist approved for pesticides is recommended. Use Cartridges with NIOSH/MSHA approval number C-23C or canister with NIOSH/MSHA approval number TC-14G. Full facepiece replaces the need for chemical goggles. Observe respirator use limitations specified by manufacturers. Respiratory protection programs must comply with 29 CFR 1910.134.

For Use of Product in accordance with label instructions: Respirators are not required for use of this product in accordance with label instructions.

PHYSICAL AND CHEMICAL PROPERTIES

PHYSICAL STATE: Liquid

ODOR: Practically odorless to slight amine-like odor

COLOR: Amber to yellow liquid

DH: ~4.6 to 5.0

SOLUBILITY IN WATER: Soluble

DENSITY: 8.93 Lbs./gal

VISCOSITY: No Data Available

MENTS:

DH: 1% solution in water @ 25 C

STABILITY AND REACTIVITY

TABLE: YES

HAZARDOUS POLYMERIZATION: NO

STABILITY: Product is stable for at least 5 years under normal conditions
warehouse storage.

INCOMPATIBLE MATERIALS: Do not apply with a
galvanized or unlined steel sprayer, or through any irrigation system.

OXICOLOGICAL INFORMATION

TE

YES: rabbit - moderately irritating, irritation cleared by test day 7.
'A FIFRA toxicity category - III.

ERMAL LD₅₀: Rat = > 5.0 g/kg. EPA FIFRA toxicity category - IV.

CIN IRRITATION: Rabbit - slightly irritating. EPA FIFRA toxicity category - IV.

ORAL LD₅₀: Rat = >5.0 g/kg.

'A FIFRA toxicity category - IV.

INHALATION LC₅₀: Found to be practically nontoxic to rats following a 50 hour inhalation exposure; the inhalation LC₅₀ is >5.7 mg/L (EPA FIFRA Toxicity Category - IV).

SENSITIZATION: Guinea pig - no evidence of allergic skin reactions.

SUBCHRONIC: Data from glyphosate laboratory toxicology studies were conducted with a formulation comprised of 62% isopropylamine salt of glyphosate (MON 0139).

Rabbits - 3 week dermal: Repeated daily primarily resulted in slight skin irritation.
Dogs - 6 month feeding: Only slight body weight changes noted.

Additional toxicity information is available on glyphosate, the active herbicidal ingredient of MON 0139.
Rats - 90 day feeding: No treatment related effects.
Dogs - 90 day feeding: Decreased weight gains at the high dose level group animals.

CARCINOGENICITY:

CARCINOGENICITY COMMENTS: GLYPHOSATE:

Glyphosate is not considered to be a carcinogen. Glyphosate did not produce tumors in any of the long-term toxicology studies. EPA has classified glyphosate in category " (Evidence of noncarcinogenicity for humans).

Dogs: 2-year feeding study. Reduced body weight gain and effects on liver tissues were observed at high dose levels.

Rats: 2-year feeding study. Reduced body weight gain and eye changes were observed at the high dose level in one study, while no treatment related effects occurred in a second study conducted at lower dose levels.

Dogs: No adverse effects were observed in feeding studies with dogs.

NEUROTOXICITY: GLYPHOSATE: There was no evidence of nervous system toxicity, including delayed induced peripheral neuropathy in chickens (repeated oral dosing) or cholinesterase inhibition in rats (single oral dosing).

TERATOGENICITY: GLYPHOSATE: No evidence of teratogenic effects. Results of rat and rabbit teratology studies indicate that no birth defects were noted. This included dose levels of glyphosate that were maternally toxic.

REPRODUCTIVE TOXIN: GLYPHOSATE: No evidence of adverse reproductive effects. Glyphosate was fed continuously to rats at very high dose levels for 2 successive generations. Toxicity was reported in offspring from the high dose, a level which also produced adverse effects on the mothers. In a 3-generation study conducted at lower dose levels, no effects were seen on the ability of male or female rats to reproduce.

MUTAGENICITY: GLYPHOSATE: Glyphosate has not produced any genetic changes in various mutagenicity tests involving animals and animal or bacterial cells.

IMENTS: See Section 16 for definition of EPA FIFRA toxicity categories.

COLOGICAL INFORMATION

ENVIRONMENTAL DATA: Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

ECOTOXICOLOGICAL INFORMATION: Studies performed with a concentrated solution of the isopropylamine salt of glyphosate indicate the following:

DN 0139 Technical (62%)
1-hr LC50 Daphnia: 930 mg/L, Practically Nontoxic
1-hr LC50 Bluegill: >1,000 mg/L, Practically Nontoxic
1-hr LC50 Trout: >1,000 mg/L, Practically Nontoxic
1-hr LC50 Carp: >10,000 ppm, Practically Nontoxic

DISPOSAL CONSIDERATIONS

FOR LARGE SPILLS: Material collected that cannot be reprocessed should be disposed of in a landfill approved for pesticide disposal or in accordance with applicable Federal, State or local procedures.

PRODUCT DISPOSAL: Securely wrap partially filled or empty container in several layers of newspaper and discard in trash.

EMPTY CONTAINER: Do not reuse container. Rinse thoroughly before discarding in trash.

TRANSPORT INFORMATION

(DEPARTMENT OF TRANSPORTATION)

PROPER SHIPPING NAME: Not Regulated

PRIMARY HAZARD CLASS/DIVISION: None

UN/NA NUMBER: None

PACKING GROUP: No

I.S. SURFACE FREIGHT CLASS: Tree or weed killing
mpounds, NOI, Density of 20 lbs. or greater per cu. ft.

(ICAO/IATA)

PROPER SHIPPING NAME: Not Regulated

SPECIAL SHIPPING NOTES: The description shown may
not apply to all shipping situations. Consult 49CFR, or appropriate Dangerous Goods
regulations, for additional description requirements (e.g., technical name) and mode-
specific or quantity-specific shipping requirements.
