3. HAZARDS IDENTIFICATION**POTENTIAL HEALTH EFFECTS**

EYE: May cause severe eye irritation.

SKIN: May cause skin irritation. Product contains a component which can be absorbed through the skin. Excessive exposure may cause hemolysis (red blood cell damage) which can impair the blood's ability to transport oxygen. Material may aggravate an existing dermatitis.

INGESTION: Moderately toxic. May cause stomach discomfort, nausea, vomiting, diarrhea, and narcosis.

INHALATION: Exposure to high concentrations of vapors may cause dizziness, breathing difficulty, headaches or respiratory irritation. Extremely high concentrations may cause drowsiness, staggering, confusion, unconsciousness, coma and death. Intentional misuse by deliberately concentrating and inhaling the contents of this product can be harmful or fatal.

MATERIAL SAFETY DATA SHEET

Date Printed: 02/05/03 **Page:**

Persons with pre-existing, non-specific bronchial hyperreactivity can respond to concentrations below the TLV with symptoms as well as an asthma attack.

CHRONIC (CANCER) INFORMATION: This product contains no reported carcinogens or suspected carcinogens.

Chronic overexposure to a component or components in this material has been found to cause the following effects in laboratory animals: Kidney damage, Eye damage, Blood damage, Lung damage, Liver damage, Spleen damage, Reproductive system damage.

Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

2-Butoxyethanol causes harm to the fetus in laboratory animal studies. Harm to the fetus occurs only at exposure levels that harm the pregnant animals. The relevance of these findings to humans is uncertain.

TERATOLOGY (BIRTH DEFECT) INFORMATION: Product contains 2-Butoxyethanol which may be harmful to fetus based on animal studies.

REPRODUCTION INFORMATION: Product contains 2-Butoxyethanol which may be harmful to the reproductive system.

4. FIRST AID MEASURES

EYES: Immediately flush eyes with plenty of water. Get medical attention, if irritation persists.

SKIN: Wash thoroughly with soap and water and seek medical attention. Remove contaminated clothing, Launder contaminated clothing before reuse.

INGESTION: Since this product may contain materials which can cause lung damage if aspirated into the lungs, the decision whether to induce vomiting or not must be made by a physician after careful consideration of all materials ingested.

INHALATION: For inhalation overexposure move person to fresh air. If breathing stops, apply artificial respiration and seek medical attention.

FIREFIGHTING INSTRUCTIONS: Contents under pressure. Do not use or store near sources of heat, sparks, or open flame. Keep away from any source of heat such as sunlight, heaters or stoves that could cause the container to burst. Do not puncture or incinerate. Do not crush or place in a garbage compactor. Do not store above 120 degrees F. Aerosol containers may explode when exposed to extreme heat.

Product vapors are heavier than air and may travel a long distance to a source of ignition and flash back.

Full protective equipment including self-contained breathing apparatus to avoid inhalation of vapors should be used.

Water spray should not be used except to keep down vapors or cool closed containers to prevent build-up of pressure. If water is used, fog nozzles are preferred.

6. ACCIDENTAL RELEASE MEASURES

Remove all sources of ignition. Avoid heat, sparks, flames and anything which could cause fire.

Ventilate area of spill and adjacent low-lying areas. Avoid breathing solvent vapors. Remove with inert absorbent materials and non-sparking tools.

7. HANDLING AND STORAGE

HANDLING: Wash hands thoroughly after handling.

STORAGE: Store in a cool dry area with ventilation suitable for storing materials shown in section 2.

Keep away from heat, sparks and flame.
