

Hand Guard

#1152

Aerosol Foam Hand Protecting Spray

Product Information Sheet

Features

- Convenient sanitary aerosol
- Dries quickly
- Moisturizes with greaseless formula
- Allows skin to breathe
- Protects for up to 4 hours
- Contains lanolin and aloe vera conditioners
- Hypo-Allergenic

Description

HAND GUARD is a unique invisible skin protectant that features the moisturizing power of aloe vera and lanolin. It allows skin to flex and breathe while being protected. HAND GUARD forms a highly resistant barrier between skin and dirt, oil, grease, solvents, paints, fiberglass fibers, resins, alkalies, acids, inks, tar, and shop grime. Excellent for working with small parts where gloves may be burdensome. It helps prevent reactions caused by latex sensitivity. One application protects up to four hours.

Applications

- | | | |
|----------------------|--------------------|-------------|
| • Industrial workers | • Chemical workers | • Printers |
| • Craftspeople | • Plumbers | • Painters |
| • Servicepersons | • Nurses | • Mechanics |

Directions

Spray a generous amount on clean hands. Rub hands together. The foam will disappear and reach down into pores to protect against dirt. Make sure to get under fingernails. To remove, rinse off with soap and water.

Product Specifications

Appearance	White cream
Odor	Fragrant
Boiling Point	~212°F
pH	8.0-9.0
Solubility in Water	Complete
Vapor Pressure of Can (psig@70°F)	40-50
Total VOC%	< 10%
Vapor Density (Air=1)	> 1
Specific Gravity (H ₂ O=1) @20°C	0.96-1.00
Flash Point (Of Concentrate Only)	N/A
Storage	Store in a cool, dry area away from open heat or flame and not above 120°F.
Transportation Information	
Class	ORM-D
Proper Shipping Name	Consumer Commodity

Health	1
Flammability	2
Reactivity	0
Personal Protection	A

SAFETY DATA SHEET

1. Product and Company Identification

PRODUCT NUMBER:	1152	COMPANY PHONE:	1-800-241-8180
PRODUCT NAME:	HAND GUARD	EMERGENCY TELEPHONE:	1-800-241-8180
PRODUCT DESCRIPTION:	Aerosol Foam Hand Protecting Spray	INFOTRAC:	1-800-535-5053
COMPANY INFORMATION:	PRO CHEM, INC. 1475 Bluegrass Lakes Parkway Alpharetta, GA 30004		

2. Hazards Identification

GHS CLASSIFICATION: Flammable aerosols: Category 1 Sensitization, skin: Category 1 Environmental hazards: Not classified. OSHA defined hazards: Not classified.	SIGNAL WORD: DANGER	SYMBOL:	
---	-------------------------------	---------	--

HAZARD STATEMENTS:

Extremely flammable aerosol. May cause an allergic skin reaction.

PRECAUTIONARY STATEMENTS:

Prevention:

Keep away from heat/sparks/open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Avoid breathing mist or vapor. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves.

Response:

IF ON SKIN: Wash with plenty of water. Specific treatment (see this label). If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Storage: Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.

Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

HAZARDS NOT OTHERWISE SPECIFIED:

Static accumulating flammable liquid can become electrostatically charged even in bonded and grounded equipment. Sparks may ignite liquid and vapor. May cause flash fire or explosion.

SUPPLEMENTAL INFORMATION:

None.

3. Composition / Information on Ingredients

CHEMICAL NAME	CAS	Concentration % by Weight
1,2-Propanediol	57-55-6	2.5-10
Isobutane	75-28-5	2.5-10
Isopropyl myristate	110-27-0	1-2.5
Triethanolamine	102-71-6	1-2.5
4-chloro-3,5-xylene	88-04-0	0.1-1
Other components below reportable levels		80-90

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First Aid Measures

EMERGENCY OVERVIEW

WARNING: Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

EYES: Rinse with water. Get medical attention if irritation develops and persists.

SKIN: Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

INHALATION:

Move to fresh air. Call a physician if symptoms develop or persist.

INGESTION:

Rinse mouth. Get medical attention if symptoms occur.

MOST IMPORTANT SYMPTOMS/EFFECTS, ACUTE AND DELAYED:

Dermatitis. Rash. May cause an allergic skin reaction.

INDICATION OF IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NEEDED:

Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

5. Fire-Fighting Measures

SUITABLE FIRE EXTINGUISHING MEDIA:

Water fog. Foam. Carbon dioxide (CO₂). Dry chemical powder, carbon dioxide, sand or earth may be used for small fires only.

UNSUITABLE FIRE EXTINGUISHING MEDIA:

Do not use water jet as an extinguisher, as this will spread the fire.

SPECIFIC HAZARDS ARISING FROM THE CHEMICAL:

Contents under pressure. Pressurized container may explode when exposed to heat or flame. This product is a poor conductor of electricity and can become electrostatically charged. If sufficient charge is accumulated, ignition of flammable mixtures can occur. To reduce potential for

static discharge, use proper bonding and grounding procedures. This liquid may accumulate static electricity when filling properly grounded containers. Static electricity accumulation may be significantly increased by the presence of small quantities of water or other contaminants. Material will float and may ignite on surface of water.

SPECIFIC FIRE-FIGHTING METHODS:

Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out. Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. In the event of fire and/or explosion do not breathe fumes.

SPECIAL PROTECTIVE EQUIPMENT FOR FIREFIGHTERS:

Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

GENERAL FIRE HAZARDS:

EXTREMELY FLAMMABLE AEROSOL.

6. Accidental Release Measures

PERSONAL PRECAUTIONS:

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Remove all possible sources of ignition in the surrounding area. Wear appropriate protective equipment and clothing during clean up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Use appropriate containment to avoid environmental contamination. Transfer by mechanical means such as vacuum truck to a salvage tank or other suitable container for recovery or safe disposal. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see Section 8 of the SDS.

ENVIRONMENTAL PRECAUTIONS AND CLEAN-UP METHODS:

Refer to attached safety data sheets and/or instructions for use. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see Section 13 of the SDS. Avoid discharge into drains, water courses or onto the ground. Use appropriate containment to avoid environmental contamination.

7. Handling and Storage

SAFE HANDLING:

Minimize fire risks from flammable and combustible materials (including combustible dust and static accumulating liquids) or dangerous reactions with incompatible materials. Handling operations that can promote accumulation of static charges include but are not limited to: mixing, filtering, pumping at high flow rates, splash filling, creating mists or sprays, tank and container filling, tank cleaning, sampling, gauging, switch loading, vacuum truck operations. Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Do not re-use empty containers. Do not get in eyes, on skin, or on clothing. Avoid breathing mist or vapor. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. For additional information on equipment bonding and grounding, refer to the Canadian Electrical Code in Canada, (CSA C22.1), or the American Petroleum Institute (API) Recommended Practice 2003, "Protection Against Ignitions Arising out of Static, Lightning, and Stray Currents" or National Fire Protection Association (NFPA) 77, "Recommended Practice on Static Electricity" or National Fire Protection Association (NFPA) 70, "National Electrical Code".

SAFE STORAGE & INCOMPATIBILITIES:

Level 1 Aerosol.

Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Avoid spark promoters. Ground/bond container and equipment. These alone may be insufficient to remove static electricity. Refrigeration recommended. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure Controls / Personal Protection

Occupational exposure limits US. ACGIH Threshold Limit Values		
COMPONENTS	TYPE	VALUE
Isobutane (CAS 75-28-5)	STEL	1000 ppm
Triethanolamine (CAS 102-71-6)	TWA	5 mg/m3

US. NIOSH: Pocket Guide to Chemical Hazards

COMPONENTS	TYPE	VALUE
Isobutane (CAS 75-28-5)	TWA	1900 mg/m3 800 ppm

US. Workplace Environmental Exposure Level (WEEL) Guides

COMPONENTS	TYPE	VALUE	FORM
1,2-Propanediol (CAS 57-55-6)	TWA	10 mg/m3	Aerosol

BIOLOGICAL LIMIT VALUE:

No biological exposure limits noted for the ingredient(s).

ENGINEERING CONTROLS:

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

INDIVIDUAL PROTECTION MEASURES, SUCH AS PERSONAL PROTECTIVE EQUIPMENT:

EYE PROTECTION: Face shield is recommended. Wear safety glasses with side shields (or goggles).

SKIN PROTECTION: Wear appropriate chemical resistant gloves. Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

RESPIRATORY PROTECTION: If permissible levels are exceeded use NIOSH mechanical filter/organic vapor cartridge or an air-supplied respirator.

THERMAL HAZARDS: Wear appropriate thermal protective clothing, when necessary.

GENERAL HYGIENE CONSIDERATIONS:

When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical & Chemical Properties

APPEARANCE:	FLAMMABILITY(solid/gas): Not available.	
Physical State: Gas.	Flammability Limit-lower (%)	Not available.
Form: Aerosol.	Flammability Limit-upper (%):	Not available.
Color: Not available.	Explosive Limit – lower (%):	Not available.
ODOR: Not available.	Explosive Limit – upper (%):	Not available.
ODOR THRESHOLD: Not available.	VAPOR PRESSURE:	23.01 psig @70°F estimated
pH: Not available.	VAPOR DENSITY:	Not available.
MELTING/FREEZING POINT: Not available.	RELATIVE DENSITY:	Not available.
INITIAL BOILING POINT/RANGE: 212°F (100°C) estimated	SOLUBILITY (water):	Not available.
PARTITION COEFFICIENT (n-octanol/water): Not available.	AUTO-IGNITION TEMP:	Not available.
VISCOSITY: Not available.	DECOMPOSITION TEMP:	Not available.
SPECIFIC GRAVITY: 0.868 estimated	FLASH POINT:	-99.4°F (-73.0°C) PROPELLANT estimated
EVAPORATION RATE: Not available.		

10. Stability & Reactivity Information**REACTIVITY:**

The product is stable and non-reactive under normal conditions of use, storage and transport.

CHEMICAL STABILITY:

Material is stable under normal conditions.

POSSIBILITY OF HAZARDOUS REACTIONS:

Hazardous polymerization does not occur.

INCOMPATIBLE MATERIALS:

Strong oxidizing agents.

CONDITIONS TO AVOID:

Avoid temperatures exceeding the flash point. Contact with incompatible materials.

HAZARDOUS DECOMPOSITION PRODUCTS:

No hazardous decomposition products are known.

11. Toxicological Information

PRIMARY ROUTE OF ENTRY:

EYES: Direct contact with eyes may cause temporary irritation.

SKIN: May cause an allergic skin reaction. Prolonged or repeated exposure may cause liver and kidney damage. These effects have not been observed in humans.

INHALATION: No adverse effects due to inhalation are expected.

INGESTION: Expected to be a low ingestion hazard.

SYMPTOMS RELATED TO THE PHYSICAL, CHEMICAL AND TOXICOLOGICAL CHARACTERISTICS:

Dermatitis. Rash. May cause an allergic skin reaction.

ACUTE TOXICITY:

May cause an allergic skin reaction.

COMPONENTS	SPECIES	TEST RESULTS
1,2-Propanediol (CAS 57-55-6)

* Estimates for product may be based on additional component data not shown.

SKIN CORROSION/IRRITATION:

Prolonged skin contact may cause temporary irritation.

SERIOUS EYE DAMAGE/IRRITATION:

Direct contact with eyes may cause temporary irritation.

RESPIRATORY SENSITIZATION:

Not available.

SKIN SENSITIZATION:

May cause an allergic skin reaction.

GERM CELL MUTAGENICITY:

No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

CARCINOGENICITY:

Risk of cancer cannot be excluded with prolonged exposure.

IARC Monographs. Overall Evaluation of Carcinogenicity

Triethanolamine (CAS 102-71-6) 3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050): Not listed.

REPRODUCTIVE TOXICITY:

This product is not expected to cause reproductive or developmental effects.

SPECIFIC TARGET ORGAN TOXICITY (single exposure):

Not classified.

SPECIFIC TARGET ORGAN TOXICITY (repeated exposures):

Not classified.

ASPIRATION HAZARD:

Not available.

CHRONIC EFFECTS:

May be harmful if absorbed through skin. Prolonged exposure may cause chronic effects. Prolonged or repeated exposure may cause liver and kidney damage. These effects have not been observed in humans.

12. Ecological Information**ECOTOXICITY:**

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

OTHER ADVERSE EFFECTS:

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal Consideration**DISPOSAL INSTRUCTIONS:**

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Dispose of contents/container in accordance with local/regional/national/international regulations.

LOCAL DISPOSAL REGULATIONS:

Dispose in accordance with all applicable regulations.

HAZARDOUS WASTE CODE:

The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

WASTE FROM RESIDUES/UNUSED PRODUCTS:

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

CONTAMINATED PACKAGING:

Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Do not re-use empty containers.

The user is responsible for full compliance.

- A BARRIER BETWEEN YOUR SKIN AND PAINT, INK, DIRT and GRIME . . .
- PROTECTS EXPOSED SKIN
- APPLY BEFORE BEGINNING WORK TO EASILY CLEAN OFF CONTAMINANTS.

QUICKLY ABSORBS INTO SKIN LEAVING HANDS GLOVE-FREE FOR INTRICATE TASKS.

Forms an invisible, colorless barrier between your hands, arms, legs, or other exposed skin areas and contaminants like oil, grease, dirt, grime, ink, and many other harsh chemicals. Allows the user to keep hands glove-free for touch and feeling sensitivity not obtainable with gloves. Quick to apply with hundreds of applications per can.

USED BY: Mechanics, painters, printers, service persons, workers in industrial plants and anyone whose hands may contact chemicals and grime for extended periods.

DIRECTIONS: Spray a quarter-size amount on clean hands. Rub hands together until the product is absorbed into the skin. For added protection, apply to forearms and under fingernails. To remove, rinse off with soap and water.

HMIS® RATING: Health, 2; Flammability, 2; Physical Hazard, 0; Personal Protection, X.

HAND GUARD BARRIER CREAM

DANGER: Extremely flammable aerosol. May cause an allergic skin reaction. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Avoid breathing mist or vapor. Contaminated work clothing must not be allowed out of the workplace. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Dispose of contents/container in accordance with local/regional/national/international regulations.

FIRST AID: IF ON SKIN: If, in rare cases, allergic reaction occurs, wash with plenty of water and get medical advice/attention. Wash contaminated clothing before reuse. IF IN EYES: Rinse with water. Get medical attention if irritation develops and persists. IF INHALED: Move to fresh air. Call a physician if symptoms develop or persist. IF SWALLOWED: Rinse mouth. Get medical attention if symptoms occur.

CONTAINS (CAS No.): 1,2-Propanediol (57-55-6), Isobutane (75-28-5), Isopropyl Myristate (110-27-0), Triethanolamine (102-71-6) and 4-chloro-3,5-xylenol (88-04-0).
