**V. Fire Fighting Measures:**

**Suitable Extinguishing Media:**

Dry Chemical (B-C), Carbon Dioxide, water fog or mist.

**Unsuitable Extinguishing Media:**

Do not use water or any Extinguisher rated only A. An exception is listed above.

**Products of Combustion:**

May form carbon dioxide, carbon monoxide, chlorine, hydrogen chloride, phosgene, and various hydrocarbons.

**Protection of Firefighters:**

Wear self-contained positive pressure breathing apparatus and protective clothes. Use shield to protect from rupturing and venting containers. At elevated temperatures containers may vent, rupture or burst, even violently

**VI. Accidental Release Measures:**

**Personal Precautions:**

Persons not wearing protective equipment should be excluded from area of spill until clean-up has been completed.

**Environmental Precautions:**

Prevent run-off to sewers, streams, or other bodies of water. If run-off occurs, notify proper authorities as required that a spill has occurred. Run off to sewer may create fire or explosion hazard.

**Methods for Containment:**

Dike or contain spill and absorb with inert materials (sand, sawdust, absorbent sweeping compounds, rags, etc).

**Methods for Cleanup:**

Using a non-metallic scoop, place contaminated material into an approved chemical waste container. Where possible, vacuum spilled liquid using an explosion proof vacuum to recover material.

**Other Information:**

All equipment used with handling the concentrate must be grounded. If run-off occurs, notify proper authorities as required that a spill has occurred.

**VII. Handling and Storage:**

**Handling Precautions:**

Use with adequate ventilation and proper protective equipment. Do not use and keep away from fire, sparks, or open flame. Do not puncture or incinerate container. Do not store above 120°F. Exposure to temperatures above 120° may cause container to vent, rupture, or burst. Avoid prolonged or frequently repeated skin contact with this material. Good hygiene is essential when around this product. Contact lenses may cause further damage in case of splash into eye. KEEP AWAY FROM CHILDREN AND ANIMALS!

**Storage Precautions:**

Do not store above 120°F. Do not store near extreme heat, open flame or sources of ignition. Aluminum equipment should not be used for storage, to transfer, pump and mix. Contact with aluminum parts in a pressurizable fluid system may cause violent reactions.
